A: General version 13 is the newest release of the game and currently being tested by some trainers. The newest patch has some fixes for the new engine, some minor balance changes and some corrections to the previous patches. It should be available in the next 2 weeks but there is no official release date as of yet. Features The older engine has been replaced with the new PES Engine, which has made an improvement to the game. Dynamic Texture mapping New Shot types and corner kicks New Prediction System Changes to the new Konami AI and more... Changes The new Pitch Sensitive Passing System has been implemented into the game. A new 3D model for Toni Targui has been added to the game. New players have a new goal kick animation. The Trainer no longer has the same yellowing and the players no longer have the same petite. The old animations have been removed from the newer team tactics. Other minor changes to animations, new sounds, and more... Bugs Hazard jumping can be triggered by goal kicks for player's that are not marked as hazard kickers. Accuracy is lower than it should be. "Team Tactics" is not automatically downloaded for new user's. Firing of the player AI is still glitchy. The ball physics is still kind of buggy. Some players are not animated and the game has an issue with the avatars not showing correctly in some other languages. Some players have a lack of movement when there
