In the emotional romance *So Close*, the wait for the birth of their son, Ta Hing, is over too soon. This movie is making rounds in the cinemas. One of the best movies of the year so far, its hard to believe that a romantic movie which focuses on a Chinese couple struggling to come to terms with the loss of their first child, is a hit in the box-office. Treatment of a computer virus on the scale of "Worm" and "I Love You" poses huge challenges for the world's best security experts - "So Close" is a suspense thriller, inspired by the real-life story of two brothers. The film, directed by Alexandre Aja, also stars Shawn Yue, Zhao Wei and Karen Mok. In this film, the two siblings are separated and are able to reunite only in the end. *So Close* is the first Chinese movie to feature Zhao Wei as the female lead, after her performance in *My Fair Princess*. The pair have performed well together in the past, with three of Zhao Wei's most memorable roles being in *The Transporter 2*, *Snakes on a Plane* and *Transporter 3*. *So Close* is definitely one of the better films I've watched this year. Action scenes are beautifully choreographed and executed, making *So Close* one of the most action packed movies this year. Fans of the recent popular *Three Musketeers* might find this film to be similar in plot but a lot more action packed. Action scenes are beautifully choreographed and executed. Shen, the lead character, is portrayed well. Some of the dialogues are taken from the film's script. The story is predictable but the characters are real. Pity, it is a short film. Sui Ming, the main villain, is amazing. His face makes us believe in him and his voice makes us move around. Danny, a hacker who constantly cracks into the world, is such a character. He has an attention to details and the way he uses his skills to trick the company is convincing. A villain is needed to add some thrill to the movie. Although I felt that it was unnecessary, I can understand their motive to keep the tension high in the movie. The screenplay writer wants to move towards the story line. There is the emotional story and the suspense-thriller story line in one film. It is successful. It has everything that one can expect in a film and more. All in all, a well-made film. I'd like
