Ok so I am a huge fan of the ZENMUSIC team's FREE icon packs, such as the Zen UI Icon and Essential Icon Pack. I usually choose the very popular Essential Icon Pack whenever I need to buy an Icon Pack since the quality of the items are great and the price is usually reasonable. However, I have been seriously craving the free iPhone Icon Pack for quite some time, so I was looking forward to finally get my hands on the new ZenUI Icon Pack. I was quite surprised when I first got my hands on this icon pack, mainly because all of the items are free to download. The icons are relatively small in size, each having a maximum of 2K x 2K in dimensions, and are typically 256 x 256 in size. The icons have transparent backgrounds and can be downloaded in the PNG, ICO, and SVG formats. It is important to note that this icon pack is still in its initial release phase and is not ready for general usage yet. However, the icon pack is in constant development, so if you notice that the icons have been updated, then the icon pack is probably ready for usage. If you are looking for an excellent icon pack that is absolutely free, then do not hesitate to try the ZenUI Icon Pack. I am sure that you will be impressed by the quality of the icons included in the icon pack. I have been looking for a good Icon Pack for a while now, and it took a long time for me to find the right one. I thought that the Essential Icon Pack was a great pack of icons that would suit my needs perfectly, but when I downloaded the Icon Pack, I was not very impressed by the fonts used in the Icon Pack. Even the styles of the fonts used were not really that great, and
