IROAD WiFi Crack For PC

IROAD WiFi is a small yet powerful software that allows you to view, save and create backups of recordings made during your driving sessions. As mentioned, the IROAD WiFi can be downloaded free of charge from the developer's official website. After downloading the program, you will have to setup it, but this is a process that is similar to any other application that you may have already installed on your system. IROAD WiFi features

- 1. Backups** The main purpose behind IROAD WiFi is to make it a lot easier to view the recorded videos. Even if there is a problem with your camera, you will have an easy way to view the videos that you have recorded. After installing the software, you have to sign in to your IROAD account so that you can view the recorded videos on the connected device. Alternatively, you can also sign in to your YouTube account for you to view the recordings.
- 2. Multi-Lang** In addition to viewing the videos, you can also create backups of the footage, because after all, there are some things that are more important than others. You can save the videos to your USB storage devices or to your internal memory. The software allows you to create different storage files to cater for all of your purposes.
- 3. Front and Rear Cameras** IROAD WiFi features two front and two rear cameras that are set up automatically. Hence, you can configure them and adjust the settings for optimal viewing. You can also control the footage from the rear cameras by pressing the menu button in the middle of the screen.
- 4. Statistics** This is actually one of the best features of the IROAD WiFi. This lets you see a detailed breakdown of the speed, distance and other statistics that you are viewing through the camera.
