## Harmony Improvisator - New Version - PC MAC UPDATED

The most “straight forward” song for harmonizing with of course is the common scale, while the most “rigid” is the pentatonic. However if you give up the “rules” you will probably stumble on a much more harmonically interesting song. What is important to keep in mind with a harmony improviser is that you must start with some chords, or the playing would have to start after everything has been chosen. A harmonizer can assist in finding chords to a piece and more importantly in sharing these chords with other players during an ensemble. In harmonic terms, harmony improvisation is a staccato. This means that each chord should be chosen as it is thought, and not the accompaniment. It is not a “game” but rather using the chords and the tools within the harmony improviser to enable a specific sound. The reason this is good is because most people don’t know how to play chords and so they need to learn some chords first. Harmony Improvisator & Harmony Tune - One of my favorite harmony improvisers, especially for creating accompaniments to songs from various musical genres.
