Ans: Infinite Screen is a useful program which allows you to arrange your desktop into multiple virtual desktops. You can then create your own unique desktop and arrange it into whatever design you desire. Q. How does Infinite Screen work? Ans: In the left side panel of the main window there is a pane for desktop arrangement: 'Desktop' and 'Window Group'. You can arrange your desktop into different sizes or create a unique desktop by adding and removing the desktops and the windows on it. You can change the desktop size on demand by clicking on a given desktop. You can drag windows to different desktops with the mouse button. You can rearrange windows by dragging the icon on the desktop. You can change the background by clicking on the thumbnail of the desktop. You can save the current desktop configuration by clicking on the '...' button in the left panel. Q. What does 'Window Grouping' means? Ans: Window grouping means that you can access the windows through a list of icons instead of a single window title. Let's say you have 6 different programs open. There's a particular one that
