### What's New In?

Ticno Recorder is an excellent desktop recording software which can help you to record and save your voice message or notes. Ticno Recorder has a very simple and unique design which makes it very user-friendly. The Ticno Recorder Features: Ticno Recorder offers the possibility to record conversations, meetings, lectures, phone calls, conferences, etc. and save them in single clicks on

---

your PC. Ticno Recorder will also offer you the possibility to listen to the recorded tracks and choose the standard output folder. Ticno Recorder will allow you to: - Record conversations, meetings, lectures and many other meetings - Allow you to listen to the recorded files and choose the standard output folder - Listen and choose the standard output folder We do have a problem: the code is identical to Ticno Recorder (bundled) except for the activation URL. Both uses App-Version: 1.0.0.3100 (Ticno Recorder) and Version: 1.0.0.300 (Ticno Recording). We want to show the customer that Ticno Recording is a different software than Ticno Recorder but they can't find out which file is what. And we don't want to mark our product with a different version number. A: This worked for me: Open your FTP site Go to your ACME Directory and browse to this directory: /public\_html/site/wwwroot/wp-content/plugins/ticno-recorder/theme/recorder Open the activator.php file and change: \$rsdl[0] = 'ActivationURL'; \$rsdl[1] = 'AppVersion'; \$rsdl[2] = 'Version'; to: \$rsdl[0] = 'ActivationURL'; \$rsdl[1] = 'AppName'; \$rsdl[2] = 'Version'; Save the file.

Quantification of myocardial fibre distribution and orientation using diffusion tensor MRI in normal hearts. We present a technique for quantifying the myocardial fibre orientation in the left ventricular walls of normal hearts using diffusion tensor magnetic resonance imaging (DT-MRI). In normal hearts, orientation of myofibers is arranged in an organized longitudinal myofiber pattern. This longitudinal pattern is of importance for mechanical
