This pack features the official GIS Standard Icons. "You have saved my family. From day one I decided to use your fabulous design for my business. I have gained so much traffic and business. Your amazing designs have saved my business and provided my family with not only a product that they are proud to wear, but also a piece of jewelry that is functional,

beautiful and meaningful to them. I have now ordered my second order with you. Thanks!" "This project pack is amazing! Thanks for the step by step project. This is the first project I've ever tried to make, and I'm very impressed! I just wanted to drop a quick note and thank you for the awesome job! It was a pleasure working with you. I think the project turned out great and I hope you will be happy with it too. " "I am so grateful for

you! I love your fonts and your projects are very informative! Thank you for sharing! " "Hi and thank you very much for the detailed instructions and the wonderful icons pack you created for this project. The icons made my job much easier, the font was a perfect match for the icons and was an instant success! This is my first time to use the font and it worked perfectly as well. I was delighted when I found out

the text turned out so well. I have used the same font to create a project similar to yours that is also now published on my blog.

Again, thank you for this wonderful project and your kind words and continued support. " "My husband and I are retired and love to plan. He has taught me so much about geometry in our planning that I have always wanted to use his map design. Now that I have an iPhone I have been

experimenting with making maps that you can put on your own phone with the Geo Icons set you sent me. As I got further into the project I found your instruction booklet very helpful in guiding me to make the map. I really enjoyed using the fonts and I am excited to use more. Thanks for the great instructions and I will be sure to tell my friends about your site when they need something great for their

own mobile projects."

"Thank you very much for this very nice project pack. I chose this pack because I wanted to learn about Geography and I did not have to spend a lot of money to do so. I was very excited to start this
