### Special Agent PC Secure Product Key Full Free Download [Latest] 2022

Special Agent PC Secure is a Spyware and Adware monitor and cleaner with real time monitoring; as well a database that is update almost daily. A configurable firewall, Phishing site and malware detecting monitor and browser. It Hides and Encrypt files and documents you don't want any to see or find. Encrypt messages, that you can email or print. And a security File shredder. It also has a host of IP tools -Connection monitor, DNS and alias tool. It can encrypt your passwords and makes them Key Logger proof when you need them. Special Agent PC Secure, has 3 different encryption tools. PC Secure has a Phishing detecting browser with ultra high security. PC Secure has 4 different full time monitors, and a Firewall that watches for intruders. Two Spyware Removers, one real time cleaner that removes them before they install and one deep scanner that scans automatically once a day. Here are some key features of "Special Agent PC Secure":  
❏ Protects you from Internet Intruders with its' strict configurable Firewall  
❏ Protects you from Spyware, Adware, Hijackers, and Trojans, being downloaded to your machine, with its' Malware monitor and Remover.  
❏ Protects you from Phishing and back door sites, with its' Phishing Detector, it's database is updated whenever a new site is reported.  
❏ PC Secure tells you when you are on a site that is known to download malware (Drive By Downloads) onto your computer without your knowledge.  
❏ PC Secure has a fool proof Phishing Browser, verifies the IP address, IP owner, URL Aliases. Even when you use your own browser it can still spot one.  
❏ Tells you who owns the Domain, the IP address, and what country the site you're currently visiting is in.  
❏ Protects you from hackers, spies, and Key loggers stealing your passwords, with its encryption tools.  
❏ Protects your private files by hiding them and encrypting them. Even you will not be able to find them until PC Secure un-encrypts and un-hides them for you.  
❏ Protects your privacy by shredding files instead of putting them in the Recycle Bin.  
❏ Protects your personal information, even when you send it by email, because it is also encrypted.

## Special Agent PC Secure

☒ Spyware, Adware, Malware, & Privacy Protection & Security ☒ 100% FREE, NO BUGS! ☒ Protects your computer against: ☒ Spam email - This is a phone system where you call to get accounts with no fees & no questions asked! ☒ Viruses - Malware that you can install or use as a Trojan to spy on you or steal your data. ☒ Adware - Programs installed to make you visit "Sponsored" sites. Adware may contain pop-up ads, cookies, and use your name and info to send unsolicited email. ☒ Spyware - These are programs that are installed to track you. Spyware can be a Trojan, worm, or RAT (Remote Access Trojan) that can spy on your computer, steal your data, and log your keystrokes. ☒ Phishing - This is a technique where someone attempts to get your personal information by pretending to be a legitimate business, service, or online retailer. ☒ Ad Scraping - When a Website collects your data and uses it to make it's own advertising. They then can sell this info to other companies. ☒ Spam URLs - Links to emails that are used to promote other businesses. This can be false positives. ☒ Key Loggers - Most computers have a keyboard logger. It records what you type while you're on the computer. ☒ Social Network Spam - This happens when a website posts a spam message, and shares it on social networks such as FaceBook, Twitter, and Google +. ☒ Browser Hijackers - These are programs that change the settings of your browser and search engine, so you are taken to unwanted sites. ☒ Browser hijacking & Spyware - A malicious program that gets onto your computer and does what it is told. ☒ Malware - Junk code that disables your computer's software, and can even delete it. ☒ Worms - Code that spreads itself to other computers and then copies itself. ☒ Browser Bugs - when your browser has security issues and you need to update it. ☒ Spyware Removers - These programs remove the spyware or other malicious software from your computer. ☒ Parental Controls - this is the only way parents can control what their children do. ☒ Personal

### What's New In?

Protects you from Internet Intruders with its' strict configurable Firewall Protects you from Spyware, Adware, Hijackers, and Trojans, being downloaded to your machine, with its' Malware monitor and Remover. Protects you from Phishing and back door sites, with its' Phishing Detector, it's database is updated whenever a new site is reported. PC Secure tells you when you are on a site that is known to download malware (Drive By Downloads) onto your computer without your knowledge. Protects your private files by hiding them and encrypting them. Even you will not be able to find them until PC Secure un-encrypts and un-hides them for you.
