You'll notice that specific animations are prioritized above the player. For example, when tackling a player, you'll see the movement, while the visual of the tackle is detailed and does not interrupt the game. This system really adds to the authenticity of the experience, and it's exciting to see the kind of creativity EA Sports brings to the table. The Three Ways to Control Players The basic controller layout has been completely updated for FIFA 22. As with FIFA 19, you'll have the option to play with a traditional analog controller, or you'll be able to play with the new controller or with classic mouse and keyboard controls. The keyboard and mouse options are unchanged. Players still have the full range of moves, including dodging and rolling, and they can also aim with their feet if they need to. The controls feel comfortable and you'll have them down to a science in no time. The new gamepad is the new centerpiece of the game, and it feels as though the Sony PlayStation 4 controller is in your hands. You'll find the same left stick, D-pad and the four-directional, clickable thumbstick, plus two shoulder buttons and a new right-stick. The right-stick is now part of a system that allows players to control their subs in either control scheme. This will allow you to put your best team on the pitch whenever you want, but it can also be used to swap between players — say, if you're playing with the mouse and keyboard, but switch to the gamepad and play someone else while you make your subs and change the teamsheet. Let's dive a little deeper into the changes. Playing with the gamepad has the biggest impact of any of the changes, and that's because you'll be able to fully feel the intensity of the game. You'll be able to feel the power of your attacker's foot, while you'll feel the speed of your opponent's foot. You'll be able to push and pull on the ball, and you'll feel the weight of passes and passes that are pulled off with brutal force. FIFA is a game that's more than just a football experience. It's the epic story of the year where you and your friends are given the opportunity to play out the greatest moments of
