# Adobe Illustrator Illustrator is the vector design program. Image elements (like shapes, lines, and so on) are created within the program and can be moved around, scaled, recolored, or merged. Sometimes, Illustrator is used to create images that can then be imported into Adobe Photoshop to be brought to life. \*

A couple of years ago, I decided to give Photoshop Elements a try. Why? Because I was the only Photoshop user in my office and I wanted to save time by avoiding certain tasks that people do in the more complex software. In the following, I will show you how to use all the tips to speed up your workflow. They have worked for me and, I know, they will work for you. 1. Custom keyboard shortcuts Make Photoshop Elements aware of your most used shortcuts. Every keyboard has

different shortcuts, and you don't always use the same ones. For this reason, you might want to make Photoshop Elements aware of all of the shortcuts that you use frequently.

You can do so by going to the menu Windows > Preferences > Keyboard Shortcuts.

From here, you can click on the Keyboard Shortcuts tab and add any of the shortcuts that you most frequently use. To do so, scroll through all of the shortcuts and add one that you think you use the most. When saving time, make sure to look for shortcuts before you do the actual task. For example, if you want to save as a JPEG, you can look for an option named Image Save Type. This action can be found by simply pressing Alt+S on a keyboard to open the Save dialog box. It is from here that you can change the format from PSD ( 05a79cecff

Roderick Dhuwari Roderick Dhuwari is a Ugandan businessman and social entrepreneur. He is the founder of Gift of Life, a private non-profit organization that started an in-hospital blood donation program in Uganda in 2007 that has provided over 70,000 units of blood. He grew up in a village of eastern Uganda close to the Rugegoda District headquarters. He was educated at Makerere University, Uganda's oldest university, where he obtained a Bachelor of Commerce degree. Background and education Dhuwari was born on 21 January 1986. He was raised in a village called Ntare, located in the Rugegoda District of Uganda's Eastern Region. When he was young, he had to commute some. One of his brothers died of a blood disease, and this is how he became interested in blood donation. He says: "We have a lack of blood on our blood banks. We are a donor-dependent country. In our hospitals, you cannot get blood from hospitals in Europe or America. No one wants to donate here because you don't know if you are going to benefit from it. When you see you are going to benefit from a blood donation, it means it is a means of saving lives." Gift of Life In 2007, he started Gift of Life, the world's first private non-profit blood donation organization, in Rugegoda District, Uganda. It started with a handful of paid Ugandan blood donors, who went from hospital to hospital, for a one-month training period. During this time, they received blood donation training, and during the full-time donation period they served voluntary blood donors. The blood that was collected was donated to the patients of the hospitals, and the patients received the blood that was needed. The program went on for nearly three years, after which the blood banks in Uganda had no more blood to donate. By 2010, it was no longer needed in Uganda, but it still continues to operate in Rwanda, Kenya, and South Sudan, as well as some European countries. In 2010, he was selected by the Dutch parliament to represent them in Uganda. In 2011, he moved to the Netherlands, where he completed a master's in healthcare management. In 2014, he began working on a PhD program in the same field, based on a grant from the Yvonne van Geuns Foundation. Gift of Life has been sponsored by The Netherlands-based
